It is asserted that at the time the application was made for a receiver the defendants were getting ready to bring suits against the persons complained of in the plaintiffs' complaint. The defendants declare that if any doans have been improperly made and fund misused it was before they took charge. The answer further asserts that the pres ent board of directors is willing and anxious to take any steps to recover from any per son, officer or director who has participated in any fraud, and is ready to do what necessary to increase the assets so that members may get large dividends. It is averred that if the present management is continued and no receiver is appointed the affairs will be more eco.iomically conducted, and all results that a receiver could bring about will be obtained at much less expense. The suit for receiver will be prosecuted by Noel & Lahr.

#### "THUNDER" NEXT TUESDAY. Supreme Court Will Hand Down Fif-

teen Decisions Then. The Supreme Court handed down but two decisions vesterday. Next Tuesday is expeoted to be the heavy day for decisions, as it is a time-honored rule in the court to hand down fifteen decisions on the first rule day of the term. The Supreme Court affirmed the judgment of the lower court. The judgment in the case of Benjamin

Heaston against the commissioners of Huntington county was also affirmed. The suit was an appeal from an order overruling a remonstrance against levying a secon assessment on land by the Wabash and Salamonie free gravel road, to pay a deficit of \$10,000 in the cost of construction and in-terest on the bonds which remained after expending the money raised by assessment nine years before. The court held the second assessment may be made when the first is not sufficient, provided the total assessment against the land does not exceed the estimated benefits to be derived by the land The Appellate Court held, in the case of Warren McManaway against John Crispen from Fulton county, that a private citizen has no right to impound cattle or sheep found at large on the public highway. Chapin, referee in the bankruptcy proceedings, reported that the receivers sold the property ceiver. They also assert that the present on April 18 for \$356,000, of which \$185,000 was paid in bonds of the company held by the purchaser, the General Electric Company, and the balance of \$171,400 in cash. He claimed that the receipt of the bonds was a dividend on a preferred claim and he was entitled to the legal 1 per cent. commission. A STRONG, STURDY SET OF **BRAINS?** 

**GRAPE-NUTS** A MAN SAID

"I don't believe you can arrange food so that it will go to rebuild and nourish the brain. Grape-Nuts is a most delightful tasting food, but I can't understand how you expect any certain food to be appropriated by any certain part of the body."

A good, honest skeptic and well worth at-Actual results are better than any theory pro or con. Grape-Nuts are being eaten by person in any city of America can satisfy

himself by questioning his neighbor as to the result of the use of Grape-Nuts. The testimony is given over and over that after ten days' use there comes a feeling of strength, sturdiness, clearness of intellect

and power of the mind that is unmistakable. Thinking uses up each day parts of the filling of the cells in brain, and Nature depotash (not from the drug store) to make now the soft jelly-like substance which is used as the filling of these brain cells.

Grape-Nuts contain these elements direct from Mother Nature and prepared in the form of a most delicious and dainty food. practically pre-digested and quickly absorbed into the system.
